AMENDMENTS TO THE ABSTRACT

In the Abstract:

Please replace the pending abstract with the newly-submitted abstract attached herewith on a separate sheet.

ABSTRACT
WEARABLE TRANSMITTING/RECEIVING DEVICE

A wearable camera arranged to be worn on a user's clothing comprises a lens section which is disguised in a piece of jewellery. The piece of jewellery is connected to a rear electronics portion by means of an electrically conducting pin. The rear electronics portion houses control means including a semi-conductor memory, power supply, control circuitry, and circuitry for controlling the gain setting of a CMOS sensor in the lens section.
